ABOUT COLLEGE

Government Home Science College is a pioneer and professional institute of Home Science in the country. Since its inception in 1961, it has grown into an excellent educational centre, satisfying the professional and specialized needs of the contemporary woman. The then dynamic Chief Minister of undivided Punjab, Late Sardar Partap Singh Kairon, was instrumental in establishing this prestigious institute which has undergone a long successful journey of expansion in the field of Home Science. Starting with a three-year degree course in B.Sc. Home Science, it expanded its

horizons in the true sense by offering a revamped undergraduate programme by moving it towards specialization to make it more skill and career oriented. The need based changes have been introduced in five undergraduate specializations namely Apparel and Textile Design; Dietetics; Human Development and Family Relations; Interior Design and Resource Management and B.Sc. Home Science Composite. The college also offers an undergraduate degree course in Fashion Designing and Masters degree courses in Clothing and Textiles, Foods and Nutrition and Human Development and Family Relations. The need based Postgraduate Diplomas in Fashion Designing, Nutrition and Dietetics and Child Guidance and Family Counselling are also other options after graduation. Ph.D. in Home Science is also offered with course work. Home Science is a unique field of knowledge. The different areas of specialization concentrate on providing suitable training to the students for various job opportunities. The trained graduates and postgraduates are absorbed in hospitals, industrial units, hotel industries, and health fitness clubs. They can also work as teachers, counselors, sales managers, apparel & interior designers, consultants and field workers in extension education and community development programmes. Thus, Home Science empowers women at personal, professional, social, entrepreneurial and economic fronts. In furthering the improvement in college RUSA has also played a very positive role. Rashtriya Uchchar Shiksha Abhiyan (RUSA) under (MHRD, Govt. of India) a Centrally Sponsored Scheme, was launched in 2013 which aimed at providing strategic funding to eligible state higher educational institutions. The college has also received funding from session 2015 onwards under different heads of infrastructural development, upgradation and new construction, for organizing workshops, seminars and faculty development programmes leading to opening up of new avenues of growth and development for the college.

Over the years, the college has built up great credibility and gained recognition as a premier institute. National Institution Ranking Framework (NIRF) has evaluated the college on the basis of Teaching Learning and Resources (TLR), Research and Professional Practice (RP), Graduation Outcome (GO), Outreach and Inclusivity (OI), Perception. The college is proud to attain 82th rank in the college category by NIRF, MHRD 2020.

FROM THE PRINCIPAL'S DESK

Government Home Science College is one of the best professional colleges of its kind in Northern India. The college brings together a sound skill oriented curriculum including professional and personal grooming with extensive, vibrant student support mechanisms.

It is important to highlight that Rashtriya Uchcharat Shiksha Abhiyan (RUSA) Infrastructure Grant of Rs. 2 Crore received from MHRD has played an instrumental role in enhancing the infrastructure, quality and branding of our education. RUSA is a flagship initiative which has emphasized upon access, equity and quality in higher education. It is an endeavor towards providing quality higher education and an affirmative step which aims to change the face of Higher education radically. Strategic RUSA funding has ensured that the issues of quality were addressed in a systematic manner. The priority of our college was infrastructure development, upgradation, addition of equipments to modernize the labs and seminar/conference rooms as well as capacity building of staff and students. This funding helped us in building a quality education system for not only churning out bright graduates but also supporting quality research initiatives. Our mission has been to transform girl students into competent well-groomed professionals, responsible citizens and empowered women to meet everyday challenges. The holistic and quantitative approach to higher education, along with addressing issues of access, equity to teaching and the learning process has been possible only and only due to RUSA. I wish RUSA team best of luck in the initiative of bringing out 'RUSA Newsletter'

MESSAGE FROM RUSA COORDINATOR

I am glad to witness my association with RUSA since 2016 and it gives me a feeling of pride that the institution's vision is getting embodied with firm and steady results over the time with the help of RUSA. It is indeed a matter of delight and pride to see how preparatory grant released under RUSA since its inception has been like a small seed sown which has grown into a mighty tree of knowledge.

I am proud to acknowledge many praiseworthy contributions of the entire RUSA team for the cause of all round development of the institution through their incessant efforts round the clock. In this backdrop many workshops, faculty development programs and host of other seminars were conducted for teaching, non-teaching, class IV employees and students.

RUSA facilitated the college with infrastructure upgradation grant, funds for new construction and refurbishment and renovation which gave new horizons of development to this institution.

RUSA funding of Rs. 2 crores by MHRD has come as a boon for our college as a means for establishing modern and attractive infrastructure i.e building of Multimedia Research Block, renovation of college corridors, library, conference rooms etc. The RUSA grant also facilitated procurement of new equipments like computers, networking devices and licensed softwares for further development of the IT infrastructure of the college. To provide the necessary impetus to the teaching learning process, several books, journals and e-resources were added to the library.

RUSA funding, being norm based funding, has been a turning point for our college which facilitates to achieve higher enrollment rates and address access, equity and quality related concerns. The overall impact of the RUSA funding may be seen in the improved academic performance of our students and the successful utilization of resources by our teachers in disseminating the knowledge to students. The college is grateful for the financial assistance offered by RUSA and commends its vision of improving the overall quality of education by introducing transformative reforms in the higher education system. Thus this journey with RUSA has given a lot of new learning experience to all of us and also enabled the college to achieve a higher trajectory of growth and success. As we release the RUSA newsletter to acknowledge all the assistance provided to the college under RUSA, I express my heartfelt gratitude to State Project Director RUSA, Additional State Project Director for their unconditional support and assistance. I am extremely thankful to our worthy principal maam for her consistent support and guidance throughout the programme. My

RUSA JOURNEY- AT A GLANCE

The financial assistance received under RUSA helped the college in its vision of making higher education not only accessible to more students but also to make it holistic. Sincere efforts by the government to uplift colleges are seen by students and teachers in very high regard. RUSA here is acting as a magical wand in uplifting the colleges on such a fast track mode while ensuring quality in construction renovation and procurement. The workshops conducted under RUSA have helped the teachers, college staff and students in upgrading their knowledge. We are thankful to RUSA as it has helped the college make quick progression towards its upliftment. Thus, the session wise journey of the RUSA in college has opened up a new path of progress.

Designing Interiors (22.10.2018) Resource Person- Ms. Gurjot Shan (Asst. Prof. Dept. Of Interior Design, Chandigarh University)

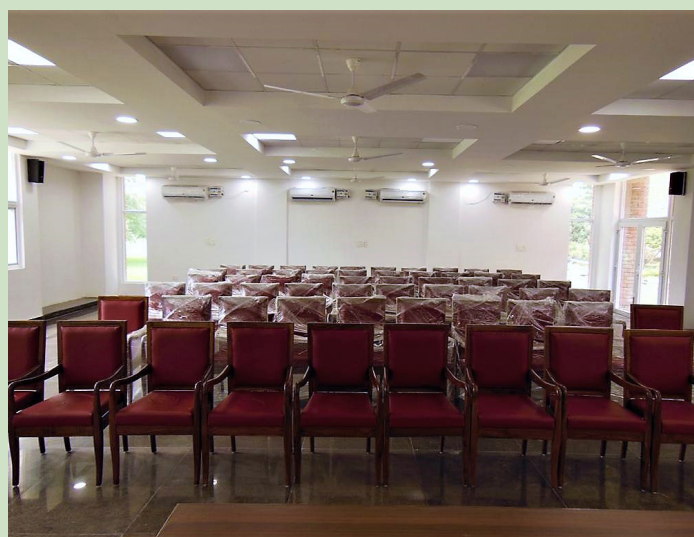

Nutritional Genomics-coming Era Of Personalized Nutrition (23.10.2018) Resource person-Prof. Neelam Khetarpaul (Professor HAU)

RUSA - A PATH TOWARDS DEVELOPMENT AND GROWTH

New Construction

The Research Multimedia block has been constructed for post graduate and doctorate students where they will interact and disseminate knowledge. They will present their research work. Seminars and workshops for these classes will also be held here.

RUSA- A FACELIFT THROUGH RENOVATION AND REFURBISHMENT

Under renovation/upgradation effort has been made to make college disabled friendly by renovating flooring with vitrified tactile tiles. Tactile tiles provide a distinctive surface pattern detectable by long cane or underfoot which are used to alert the visually impaired of approaching hazardous surface or grade changes.

Vitrified tactile tiles on the ground floor to make college disabled friendly

Library has been renovated with PVC flooring to reduce noise and glass doors to make cooling more effective so that conditions are conducive for learning and reading for students.

EXISTING INFRASTRUCTURE WHICH HAS BEEN RENOVATED :-

- E-pathshala
- Conference Room
- Committee Room
- Pantry Room
- Upgradation of B.Sc Hostel Kitchen into Modular Kitchen

E-PATHSHALA

SKILL DEVELOPMENT LAB

Skill development lab was made with the purchase of sewing machines. This helped in empowering the poor urban women with skills in Fashion Designing. It was inaugurated by Shri. B. L. Sharma (IAS), Honorable education secretary.

Skill India
कौशल भारत - कुशल भारत

STAKEHOLDERS

TEACHERS' POINT OF VIEW

Under the aegis of RUSA, there has been an overall improvement in the quality of the institute in terms of infrastructure and faculty development which confirms to the prescribed norms and standards for accreditation as a mandatory quality assurance framework. Funds are being utilized for upgrading the existing infrastructure by way of new construction, renovation and purchase of equipment. The upcoming multimedia hall will enable the institute to develop research and innovative teaching facilities to make it more relevant to the global needs. E-Pathshala, ICT enabled education equipped with research software, will provide better teaching learning environment to the students.

RUSA is successful in creating modern high tech infrastructure in colleges which is making teaching and learning more interesting and stimulating. Renovations in college buildings, laboratories, libraries, construction of new research wings, E-Pathshala, purchase of sophisticated pedagogy appliances and books would not have been otherwise possible in such a short span. Faculty development program has helped in imparting knowledge on current issues to staff and students. This scheme is unique because of its quick target oriented schedule and transparency in usage.

STAKEHOLDERS

STUDENTS' POINT OF VIEW

RUSA has been a big boon for our college. The library has become a much better place to read and study. There is very little disturbance and the environment is also very good.

Anjali
Former President

It has been due to RUSA that we have got so many equipments in college. Sanitary vending and destroyer machines have been very useful for all the girls. Digital teaching system has made learning much easier in classes.

Aditi
Former Vice President

Various workshops and awareness programmes were organized under RUSA which also enhanced our knowledge holistically. Teaching – learning process has also benefited by the upgradation of laboratories, smart classrooms, and other knowledge resources as RUSA has provided LEDS in the college and mess, computers and digital podiums for smart classrooms.

Navpreet Kaur Gill
NSS Incharge

We are very thankful to RUSA as our college is a much better place than it was a few years back. The Multi Media Research Block coming up will be very useful for us, especially for those who want to do research. The outdoor gym is being used by us, taking care of our physical health.

Rubina

Faculty development programme by RUSA concludes

EXPRESS NEWS SERVICE
CHANDIGARH, FEBRUARY 7

A WEEK-LONG faculty development programme at Home Science College organized under the aegis of RUSA concluded on Tuesday. Officials said that the day began with a session on good posture for better living by Dr Pradip Sarkar, in-charge of physiotherapy at PGI.

Sarkar, who talked about general lack of fitness due to our lifestyle, and the disorders that arise due to it, also stressed on the importance of balanced diet and gave general advice on easy exercises for posture improvement.

The principal, Dr Sudha Katyal, who delivered the valedictory address in the afternoon session reiterated that the "rigorous change in the education scenario necessitates continuous upgrade and enhancement of the skills of the faculty". She expressed appreciation for the impetus given to quality in higher education by RUSA and thanked the Department of Higher Education, Chandigarh Administration for supporting the college in the conduct of such programmes.

(Retd.) Col. Chadha during his speech quoted the Kothari commission (1996) by saying that India's destiny is dependent on skill, talent, patriotism and quest of knowledge of its teachers.

College organizes Workshops on Developing Life and Aesthetic Skills

DP CORRESPONDENT
Chandigarh

The government college of home science sector 10 Chandigarh organised a series of workshops for the resident students of the under graduate and Post graduate hostels in the college. The workshops were organised with the objective of equipping with knowledge base, having a learning by doing and participating in creative workshops, and interacting with life skill experts so as to enter the real world after their graduation or masters in a smooth transition. The initiative is being taken under the aegis of RUSA and Director Higher Education, Chandigarh Administration. During the workshop, Dr Ravneet Chawla from the Human Development and Family Relations Department of the college held many sessions in which activities on self awareness, sharing perspectives with students on a 'real' versus a 'masked' person and on what matters in the real life. She shared her experiences and also referred to cases to help students understand how well possible is it to enhance ones needs and efforts to gratify so as to rise oneself to self actualize.

Workshop on development of entrepreneurial skill held at Home Science College
