3	Observations / suggestions of students regarding Teaching – Learning and Action taken	24

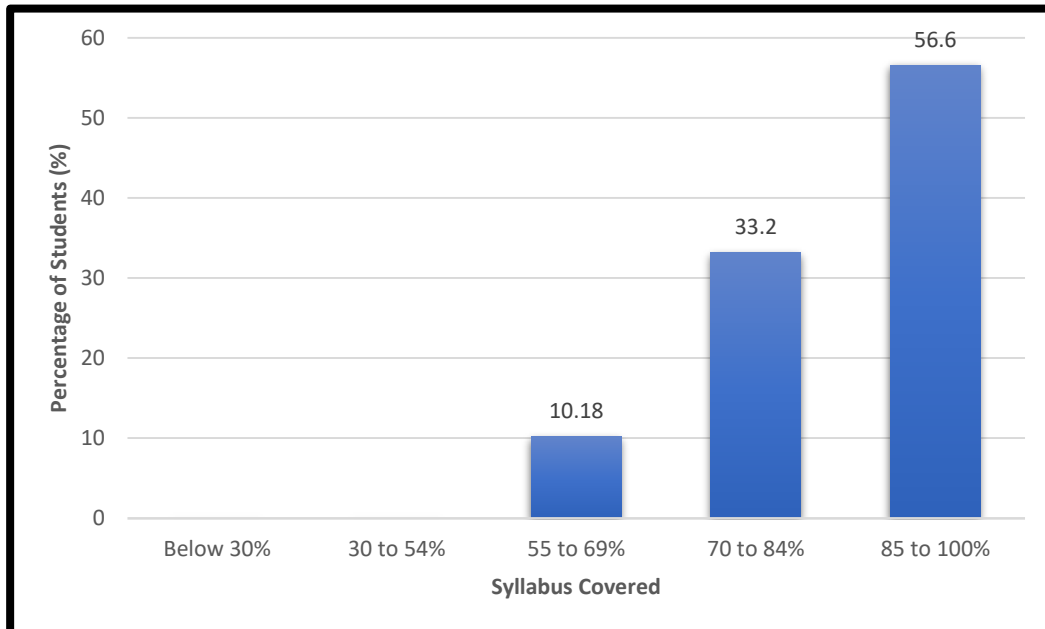

Introduction

The **Student Satisfaction Survey (SSS)** is a key component of the NAAC accreditation process, capturing student feedback on teaching, infrastructure, and overall campus experience. It assesses the quality of education, fairness of evaluation, availability of resources, and support for personal and professional growth. It serves as a direct and effective indicator of the quality of teaching and learning within the institution. By analysing student feedback, it provides actionable insights to enhance institutional performance. The college actively encourages students to participate in the SSS, ensuring their voices contribute to continuous improvement and the creation of a conducive learning environment.

Since students are the key stakeholders of feedback process of any educational institution, therefore, their satisfaction survey was conducted for the session 2023-24 i.e. total strength of 458 students. Out of these, 229 students i.e. 50% of the total strength responded with their feedbacks and gave their suggestions regarding teaching learning process, infrastructure and other parameters for the college and hostel. Their responses regarding the same were analyzed and necessary actions were taken by the college.

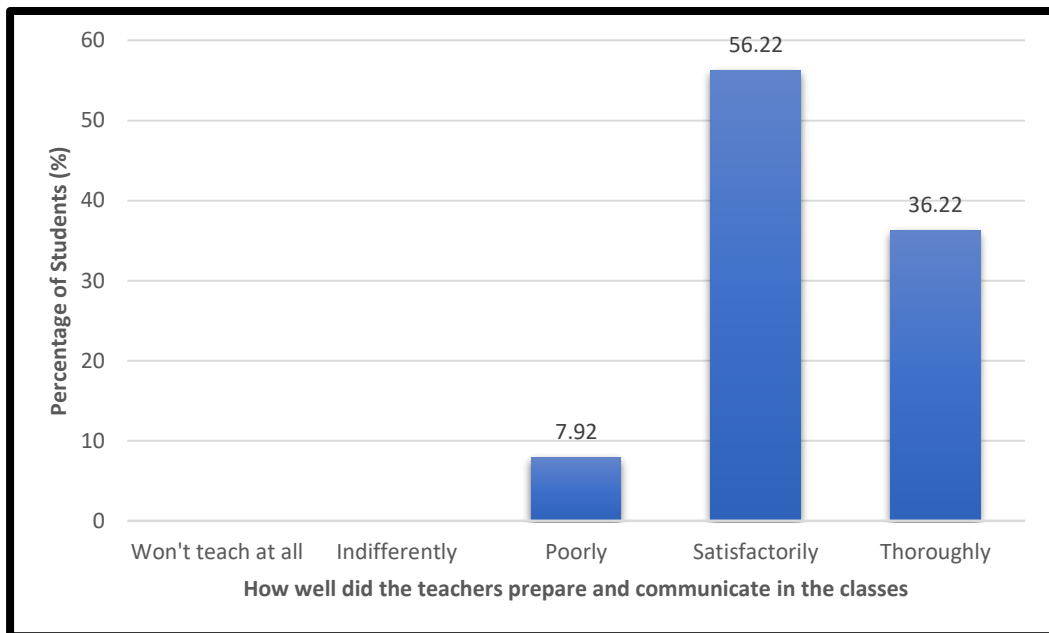

Student Satisfaction Survey 2023-24

1. How much of the syllabus was covered in the class?

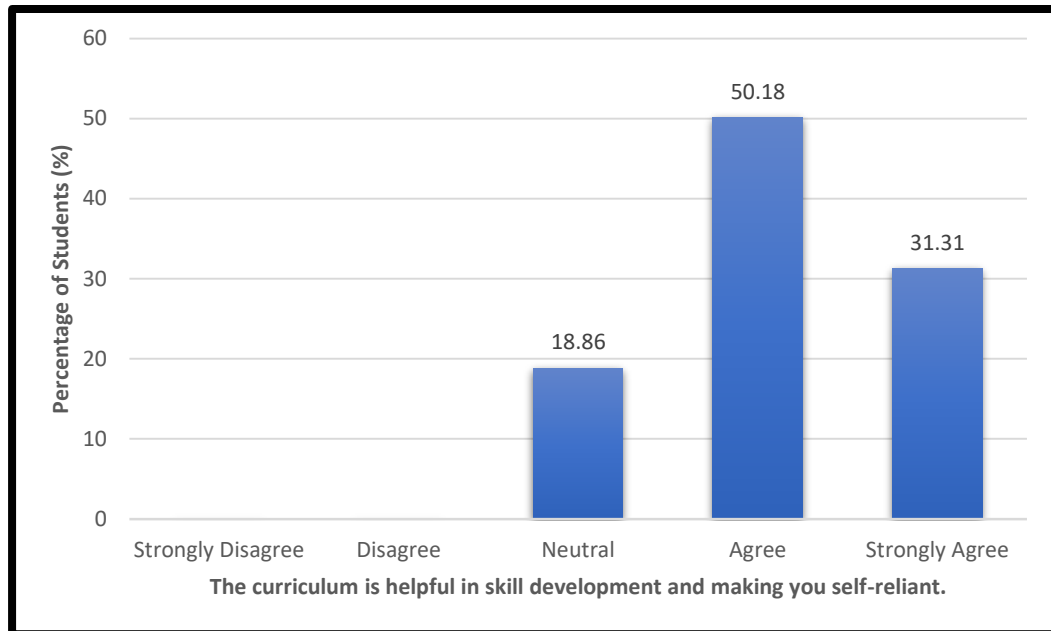

The graph shows that large majority of the students i.e. 56.6 % reported to have covered 85% to 100% of the syllabus and 33.2 % of the students replied coverage of 70 to 84 % of syllabus, indicating major syllabus completion overall.

21. Give three observations / suggestions and action taken to improve the overall teaching-learning experience in your institution.

Summary of Observations/ Suggestions provided by the students to improve the overall teaching-learning experience in your institution.

The institution has received overwhelmingly positive feedback from students, with most of them considering the quality of teaching and learning to be excellent. Additionally, students have shared valuable suggestions aimed at further enhancing the overall educational experience. These insights are instrumental in guiding the institution's efforts toward continuous improvement and ensuring a student-centred approach to education. Recommendations include providing increased digital access to books, improving sports and gym facilities, improvement in laboratory facilities, incorporating more ICT in teaching, and improvement in canteen food menu. To address these suggestions, the institution has taken decisive actions. Many sports equipments like poles for Kho-Kho and Badminton and rubber flooring mats for indoor gym have been purchased to provide more sports and gym facilities to students. The library facilities have been added with the purchase of new software Koha and infolibnet access. More laboratory equipments like Mannequins for Clothing & Textiles laboratory and Crockery for Foods and Nutrition laboratory have been purchased. Additionally, the canteen food menu has seen improvements, with the inclusion of nutrient-enriched food options. These actions reflect the institution's commitment to continuously enhance the learning environment based on student inputs.
